Postscript .- The following gentlemen have arrived from Albuquerque, who were present at the inquiry into the murder of Skinner James S Calboun, Grafton, Baker, Morren, A. N. Smith, R. T. Brent, and Geary. Mr. West, the Attorney General, appeared for the prosecution. Juan C. Armigo was held to bail in \$1,500 to answer to the charge of murder before the Grand Jury of the County. There was no evidence to prove that he was the man who killed Skinner. No other arrests have been made in

The Governor is determined to be heard at Washington. Judge Baker leaves in the mail to-morrow for Washington, but it is greatly feared that unless the Governor is removed, serious disturbance will take place in this country. Great excitement prevails here at the result of the inquiry.

In justice to Armingo, I may say that he is known to be a quiet man, and friendly to Americans. The whole affair has resulted from the folly and partisan acts of the Governor, who thought, but wrongly, that he could wire puil nere withinpointy. If this act of atrocity does not receive the strong disapprobation of the Government at home, it will lead to more murders.

Spain and the Late Cuban Affair—Acceptance of the Havana Consuiship by Judge Sharkey -The Imprisonment of Mr. Thrasher, &c WASHINGTON, Friday, Nov. 7, 1851.

It is rumored that dispatches have been received by the Spanish Legation at Washington, stating that Spain only requires a salute to her flag by the United States to forget the insult at New-Orleans, and to set the American prisoners

A letter of acceptance of the Hayana Consulship has been received from Judge Sharkey.

A letter received here, says that Thrasher's dungeon is so wet and unwholesome, that no nan can survive a month in it. It also charges, that Consul Owens made charges to the Captain-General of Cuba against Thrasher asserting that he had propagated libels, &c., to procure his (Owen's) recall—Thrasher being an applicant for the Consulship.

Austris. Texas, Thursday, Oct. 16, 1851.

Gen. Persifer F. Smith arrived in San Antonio on the 25th ult. He assumed the command of the Department upon his arrival at Indianolo. The General has since left upon a tour of inspection of the military pôsts. He goes as far as Eagle Pass, and then turns northward, for the line of posts from San Antonio to Fort Washita, in Arkansas. General Harney has been ordered to attend the great council to be held October H, and subsequently to make a tour of inspection of the posts on the Rio Grande, reporting fully concerning them. Lieut. Gibbs. of the Rifles, and to Gen. Smith, has not yet arrived in Texas. Much is to be expected from the council now meeting. The Indians are willing to compromise, and to be on terms of friendship, but they will not hear of any further aggressions on the part of the whites, and the difficulty will be to arrange distinctly the line dividing their country from that which is claimed by the whites. No outrages on the part of the Indians have occurred in this section for some time. The country is suffering sadly for want of rain. In some places there has been hardly enough of corn saved to last the growers the winter, and seed for next year. [Cor. of Phil. Inq.]

COURT PROCEEDINGS.

Court of Common Pleas.—Before Judge Woodruf —Robertson against Stater.—Plaintiff held a lease of premises belonging to the Carnes estate, in Seventeenth-st, and assigned it to defend ant, receiving two notes therefor, for about \$775. The present suit is on the notes. The lease assigned, contained the usual clause in leases, from the Carnes estate, that it should cease on the death of Mrs. Carnes.

Carnes estate, that it should cease on the death of Mrs. Carnes.

Mr. S. refuses to pay the notes on account of this clause in the lease, alleging concealment of the fact on the part of Mr. R., and he sets up a recoupment in the way of damages for \$700.

The Court held that until Mr. S. had been turned out of possession he could not claim either a failure of consideration nor recoup (offset) in damages.—Verdict for plaintiff in amount.

Before Judge Ingraham.

Coleman agt. Sherman and Reed.—To recover damages for alleged trespass and assault and battery, already referred to. Verdict for plaintiff, \$20, which estries a like amount of cost.

I We were somewhat struck with a remark made by a New-Yorker, who witnessed the sad accident at the depot on Wednesday. Having inquired if the injured boy would be taken to the Hospital, and being answered we had no such edifice he exclaimed—" What! Friy Churches and no Hospital! Oh most Christian N. work." (Newark Mer.

First.—Yesterday morning a fire broke out in a frame building in the rear of No. 55 First-st., occupied by several poor families and owned by Hon. C. Crolus. The fire department were promptly on the ground, and soon succeeded in subduing the flames. Demage about \$300—insured for \$800. Had it not been for the prompt and energetic action of the firemen the fire would have communicated to the adjoicing property, and probably have proved very disastrous in its results. Capt. Hicks, of the Seventeenth Ward Police, with a platoon of men, was on the ground and preserved order.

A. belorged to Bridgeport. Count, where he has left a family. We cannot ascertain the names of the crew. The P. was a fine versel of 115 tuns, two years old, and with her cargo was unisured.

We learn from South Harwich that the whaling schr. Belle lake, which was run down by stemaship Wm. Penn, and was subsequently in tow of two schooners who cast her off, has drifted into Butler's Hole, between Mogany Pennt and Nantucket. She is full of water, head down, and awrings to the tide, from which it is believed, she is held by an anchor.

The Volparaise Reporter of the 1st ult, states that the quantity of tunnage in that harbor is excessive, and without stospect of any employment whatever, and many vessels will have to go to Brazil and other places in ballast before any improvement can take place. In consequence of this scarcity of employment, several vessels have occa sold by suction.

PROPOSALS FOR LOAN

\$600,000 NORTHERN IN-CENT. MORTGAGE BONDS.

The Northern Indiana Railroad Company offer for sale \$500,000 of their 7 per cent mortgage, bonds with in-

erest coupons annexed.

They are in sums of \$1,000 each payable August the 1861, with interest at 7 per cent semi annually on 1st of February and 1st of August, payable at the Mechanics' Bans in this City, where the principal is also payable, and are secured by a mortgage to Shepherd Knapp, Esq., of

New York, in trust for the bond-bolders.

They are issued under note of the Legislature of Indiana, authorizing their issue and the mortgage as above, to secure the same. The amount of bonds to be thus issued ader the mortgage, is limited to One Million of dollars,

now offered for sale.

The morngage covers the whole road of the Company in

This embraces the entire line from its connection at the of which it is an extension) through Elkhart, Mishawaka, South Bend, and Laporte, to the boundary of Illinois, about 100 miles: a line to and from Michigan City of about 20 miles, connecting with the same, and a line of 10 miles from

Eikhart to Goshen-making in all about 135 miles of read. The Company hold also, by lease and centract, a line from the western boundary of Indiana to Chicago, of about 11

Michigan Southern Company, a continuous line of radroade is formed from the head of Lake Eric, at Mohroe and Tole-do, in a very direct course through Southern Michigan and Northern Indiana to Chicago-a distance from Monroe of 246 miles, and from Toiedo of 243—all to be under one su-perintendence and management, and for all practical pur-

poses forming one joint interest.

At Chicago this line of Road connects with the "Chicago and Rock Island Road," to be extended to the Mississippi River, at Back Island, 199 miles long, and which is under

contract.

Also, with the Chicago and Galena Railroad, about \$4 miles of which is now about completed and in use, the en-tire line of which, it is expected, will be completed to the

Mississippi River in all next year.

Also, with the Illinois Central Railroad, to run from Cairo, at the mouth of the Ohio River, to Chicago. At Toledo it unites with the great chain of Railroads along the shore of Lake Eris to Cleveland, Dunkirk and Buffalo. This whole south shore line will probably be completed in the course of the next season, and parts of it

will be opened for use the present year.

The whole line of Roads of this Company is under cantract; the grading and bridging on 50 miles are completed. and the rails laid on 50 miles of it. The fron has been pur-chased for the whole Road from the boundary of Michigan to Chicago, and most of it is delivered on the line ready for use. The Road is finished 30 miles to South Bend, to which point the cars are now running from Mouroe and Toledo, and the work of laying down the rails is in active progress upon the residue of the line. The main line from the East to Laporte (some 56 miles) will be opened next month, and the whole road from Lake Erie to Chicago, in March next, when the journey from Lake Erie to Chicago,

may easily be made in 8 hours.

The means for the construction and equipment of the construction and equipme Northern Indiana Road are provided by stock and bonds. Nearly one million of dollars are subscribed to the stock, about \$530,000 of which is taken in New-York and the Eastern States, the remainder along the line of the Road. An average of 50 per cent, has been paid on these subscriptions, and the residue is being regularly paid at the call of

the work, the Company have issued their Mortgage Bonds to the amount of one militon of dollars in all, as above stated, proceeds of most of which are wanted to pay for ron rails, machinery, &c. The mortgage empowers the Trustee, in case of fulare to pay either interest or principal, to take passession of the Road, with its equipments, and receive its earnings, or to

sell the same, on due notice, and apply the priceeds in payment. payment.

That this Road will prope one of great [usofulness and profit will at duce be seen by reference to a map of its line and connections, being an essential link in the great chain of railways from the City of New York to the Mississipsi of railways from the City of New York to the anisonapping River along the southern extremity of the two great Lakes, traversing as it does one of the most productive agricultural regions in the United States, while its cost per mile will be less than one-half the usual cost of railroxis of the same class in the Eastern States. As a local road alone, giving an outlet to the productive region it traverses, it is confidently believed that it will pay a large profit upon

its cost without reference to its connections.

The proof of this is found in the assumes of the Michigan Southern Raffrond for the past five months, which, until the connections are formed, is to be regarded as a local read, and is of about equal length with the Northern Indiana Hoad, and traverses a country not more productive, viz: For May, 1851. \$21,427 For August, 1851. 21,196
For June, do. 22,511 For September do. 35,217
For July, do. 29,802 Total. \$126,956

It will thus he seen that the security effered is of the ughest character.
Sealed proposals will be received for any amount not less than \$1,000, until the 12th day of November next, at 3

Proposals may be addressed to WINSLOW, LANKER & CO., No. 52 Wail st., or E. C. LIFCHFIELD, Treasurer of the Company, No. 74 Beaver-st., indexed " Proposals for orthern Indiana Kailcoad Bonds." Twenty-five per cent of the purchase maney will be required to be paid immediately upon acceptance of the bids; and the remainder in equal payments on the 25th of Novem-

and the 18th of December and Any purchaser

sonds will run from date of payment. Three hundred thousand dollars (one-haif the amount low, offered) will be disposed of absolutely and without

now, offered) will be disposed of absolutely and witager reserve, to the highest bidders.

The Company reserve the right to withdraw the remainder, if the offers are not satisfactory.

All necessary information in relation to the bonds, together with maps, may be obtained by calling on Winslow, Lamer & Co., or E. C. Litchfield, at either of which places copies of the bonds and mertgage may be had.
